1 I, Gregory S. Weaver, hereby declare as follows:

2 1. I am Vice President of Golden State Drilling, Inc. ("Golden State) and have held that
3 position for about the past 18 years. Before that, I was Golden State's Human Resources Manager for
4 about three years. Golden State previously provided drilling services at approximately 14 different
5 mobile rigs in California for four different leasing operators: Aera Energy, Seneca Resources,
6 California Heavy Oil (now California Resources Corp.), and Berry Petroleum (previously Linn
7 Energy).

8 2. In my position I oversee the operations of the company including the implementation
9 and enforcement of its policies that govern employees and the expectations that the company has for
10 its workforce. I am familiar with Golden State's policies and its financial position. I am also familiar
11 with the maintenance of employee and company records at Golden State as well as the number of rigs
12 operated by the company in the ordinary course of business.

13 3. I am making this declaration in connection with the class action settlement in the
14 above-captioned litigation and the payment schedule that was approved by the Court based on the
15 number of oil drilling rigs that have operated continuously during the previous six month period.

16 4. For the six month period of April 1, 2022 through September 30, 2022, Golden State
17 had less than five oil drilling rigs operating continuously during this time frame.

18 5. During this past six month time period, Golden State had the following oil drilling rigs
19 operating during the specified period of time:

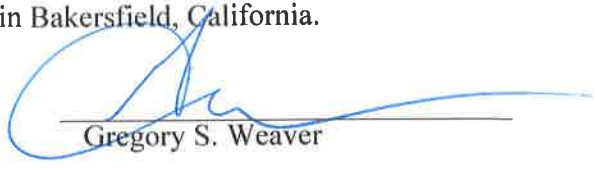

- 20 a. Rig Number 2, which operated continuously from approximately April 1, 2022 through
21 the present and is expected to continue operating;
- 22 b. Rig Number 14, which operated continuously from approximately April 1, 2022
23 through mid-July 2022 and is not currently operating;
- 24 c. Rig Number 22, which operated continuously from approximately April 1, 2022 to
25 June 19, 2022 and then operated continuously from approximately mid-July 2022
26 through the present and is expected to continue operating; and
